IP Justification Form

Midwest Energy & Communications (MEC) conforms to the North American IP Registry (ARIN) policies regarding IP address allocation. This form is used for initial assignments and augments. A written justification form is required for any IP addresses requested so that we can demonstrate to ARIN that IP allocations to us are being used efficiently.

Per ARIN guidelines (<http://arin.net/>), organizations will be assigned address space based on immediate utilization plus three- and six-month documented and confident forecasting.

If you have any questions about the IP assignment policy or process, please refer to the ARIN Resource Policy Manual. (<https://www.arin.net/participate/policy/nrpm/>).

Please complete this form in its entirety and return it to MEC for approval.
