IP JUSTIFICATION FORM

Midwest Energy & Communications (MEC) conforms to the North American IP Registry (ARIN) policies regarding IP address allocation. As part of its' standard service, we will assign the amount of IP addresses that clients can justify for use on their local area network. Use this form for initial assignments and augments. We require a written justification form for any IP address blocks requested so that we can demonstrate to ARIN that IP addresses allocated to us are being used efficiently. Per ARIN guidelines (<http://arin.net/>), organizations will be assigned address space based on immediate utilization plus three- and six-month documented and confident forecasting.

If you have any questions about the IP assignment policy or process, please refer to the IP Assignment Policy and Procedures, and RFC 2050 (www.arin.net/policy/nrpm.html#four17).

Please complete the form below and return to MEC.

Company Name	_____
Location Description	_____
Street Address	_____
Room/Suite/Floor	_____
City/State/Zip	_____
Technical Contact	_____
Title	_____
Phone Number	_____
ARIN Handle	_____

Do you have previously assigned addresses? Yes No
If yes, who assigned your previous addresses?

What addresses were assigned?

Are you renumbering your existing IP space? Yes No
If yes, what is your time frame for renumbering?

Number of IP Addresses requested/required: _____

Please use the space provided below to describe why you require the number of IP addresses requested.

Please note that equipment behind firewalls does not require globally unique IP addresses. Please also indicate whether you are conserving address space using address/port forwarding.

Please complete the network table below to describe how you will be using your IP assignments today, in three months, and in six months. (Required)

Subnet #	Subnet Mask	Max	Now	3 mo.	6 mo.	Description
1 (example)	255.255.255.240	14	11	12	14	Dedicated Webhosting - SSL Sites
Totals						

I verify that I am authorized to represent the organization below, and that the above information is true and correct. I understand that IPv4 address space is limited and that users of the internet are responsible for conserving address space and ensuring that space is utilized efficiently.
